Election/Restrictions

The reply filed on 01/16/2004 is not fully responsive to the prior Office Action because of the following omissions or matters: applicant's response to the restriction/election is incomplete as applicant did not include an election of the invention (i.e. Group I, II or III) to be examined even though the requirement is being traversed. Rule 37 CFR 1.143 requires that in requesting reconsideration the applicant MUST indicate a provisional election of ONE invention for prosecution, which invention shall be the one elected in the event the requirement be traverse. Accordingly since a provisional election of ONE invention has not been presented, the amendment/election is deemed to be non-responsive. Furthermore, applicants have chosen more than one patentably distinct species, waxes and polysaccharides. Applicant is required under 35 U.S.C. 121 to elect a single ultimate disclosed species, even though this requirement be traversed. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention. See 37 CFR 1.111.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid
